Account-Logs

Admin Portal - Overview · https://community-staging.qualityclouds.com/qcdocs/qc/admin-portal-overview/account-logs/

In the '**Logs**' tab, you can track the platform activity and track users' connections to the platform. Review the high-level log entries to review user actions.

What does each item show?

- **Date**: Indicates the last login date of the user on the platform.
- **Action**: Describes the user's activity during the last login session.
- **User**: Specifies the user who logged in.
- **Summary**: Provides a brief description of the activity.
