Test Methods Must Be In Test Classes

PMD Rules · https://community-staging.qualityclouds.com/qcdocs/qc/pmd-rules/test-methods-must-be-in-test-classes/

Impact area

Performance

Severity

Medium

Affected element

Apex Class

Rule ID

SF-OVERRIDE-BOTH

Impact

Test methods marked as a testMethod or annotated with @IsTest, but not residing in a test class should be moved to a proper class or have the @IsTest annotation added to the class. Support for tests inside functional classes was removed in Spring-13 (API Version 27.0), making classes that violate this rule fail compile-time.

Remediation

Create an apex class with @isTest annotation and move the method to the class.

Time to fix

30 min
